

SEADOG[®] LINE

QUALITY MARINE GEAR

2025 SUPPLEMENT

Sea-Dog does not sell to the general public – we only sell to boat builders and wholesalers. For information on how to purchase our products, visit the "Where to Buy" page on our website.

Back Cover Explained

Why did we choose the Port of Everett to feature on our back cover? For 100 years, Sea-Dog Line has been located in Snohomish County, Washington State, with over 60 years in Everett, WA. Established as a main hub for logging and industry, the addition of the Northern Railroad Line solidified Everett's standing as a major commercial hub. Everett is home to Boeing's Paine Field Plant, the largest building in the world by volume. The Port of Everett is the largest public marina on the west coast of the United States and the waterfront is also home to Naval Station Everett, homeport for the US Navy Carrier Strike Group.

From humble beginnings in Eldon's basement to the current 120,000+ sq/ft campus, Everett has played an important role in the evolution of Sea-Dog Line and the Nysether family. Eldon raised his two sons, Mark and Brad, in the business and while growing up, they worked right alongside their father. After finishing college, both Mark and Brad returned to the family business to continue the legacy.

One of the benefits of legacy is continuity, but it also fosters innovation. Jasper Nysether, Mark's oldest son, has been at the helm of our ship since 2022. You can expect Sea-Dog to continue to be an industry leader in quality and reliability while growing and expanding our product offerings in new and exciting ways readily visible throughout this supplement. With the ongoing support from you, our valued customers, and having third- and fourth-generation family active, Sea-Dog line is looking forward to a great future.

-1s, -3s, & -9s

Items available in retail display packaging are identified with a -1, -3, and -9 after the Sea-Dog part number. More specifically:

- 1 Hanging card, bagged with header card, or in a clamshell
- 3 Full color box
- 9 Kit which includes hardware

Why are Proposition 65 warnings in our Sea-Dog catalog?

We at Sea-Dog strive to do the right thing as a responsible manufacturer. No changes have been made to our products that have been in our catalog for years. Even though the Prop 65 label is a California only requirement, Sea-Dog Line, out of an abundance of caution, is labeling all Prop 65 items regardless of their intended destination. As part of California's Right to Know, you will see Prop 65 warnings on some of our product packaging, in our catalog, and on our web site.

Prop 65 was enacted in 1986 for California only. Its intent was to protect drinking water sources from being contaminated with chemicals known to cause cancer, birth defects, or other reproductive harm. Since its inception, it has grown to include approximately 1000 chemicals, many of which are found in common household items.

Labeled products for Sea-Dog predominantly fall into three categories as pertains to Prop 65: Those containing brass, those with a galvanized finish, or those containing PVC. All brass contains lead, as does galvanizing solution. PVC, commonly used in wiring products, contains vinyl chloride and phthalates. All of these substances are listed as chemicals known to the state of California to cause cancer or reproductive toxicity.

For additional information on Prop 65 visit: www.P65Warnings.ca.gov

We're moving cleat technology forward

Introducing the
Linear Folding Cleat

Snaps flush with
a satisfying click

Unique hardware slot
accommodates any length
of carriage bolt and holds
it for easy installation

SEADOG[®]LINE
QUALITY MARINE GEAR

LINEAR FOLDING CLEAT

The new Linear Folding Cleat is our sleekest cleat yet, but we've still packed it with features.

Spring lock
Snaps open and closed

Self-draining
No need for drain holes, unlike Pull-Up Cleat

Slim design
Minimalist design is less than 1" high when folded

Carriage bolt holder & lock

Unique bolt holder allows you to choose the mounting hardware that best suits your needs. It then locks in place.

Bi-directional installation

Easily handles linear loads by installing with folding mechanism to fore or aft.

LINEAR FOLDING CLEAT

Investment Cast 316 Stainless Steel

PATENT PENDING

Bulk	Display	A	B	C	D	E	Fastener	Finish	Wt.(lb.)	Std. Pack
041171	n/a	7-1/2"	7/8"	1-1/2"	1-3/4"	2-3/8"	5/16" Carriage Bolt	Mirror Polished	.95	10 ea

The Linear Folding Cleat features an innovative design incorporating removable carriage bolts vs. welded studs, making bolt length choices easy for the customer. The streamlined appearance is both sleek and functional. There is no need for a large custom cut out installation hole. Drill 2 - 5/16" fastener holes, place chosen length carriage bolts into end slots, then close the cleat to hold fastener in rigging position for installation. Water and debris pass through, reducing corrosion and wear to cleat. Incorporates a positive snap locking feature, simply pull-up to open and press down to close. Accommodates up to 1/2" line. Low profile ergonomic design makes for smooth, sleek appearance when closed limiting trip hazards. Constructed of corrosion resistant investment cast 316 stainless steel. Patent Pending.

RECESSED ANCHOR POINT / HORIZONTAL

Investment Cast 316 Stainless Steel

Bulk	Display	A	B	C	D	E	F	Fastener	Wt.(lb.)	Std. Pack
076102	076102-1	4"	1/8"	3/4"	3"	1-1/2"	2"	#10 FH	.23	5 ea

This Horizontal Recessed Anchor Point is designed to conveniently secure loads or attach tie-downs, cargo netting, twine, or rope. Good for light equipment use. Bolts securely and lays flush to the surface. Constructed of corrosion resistant investment cast 316 stainless steel. Installs with two #10 FH fasteners (not included).

Introducing **DAMPENING HINGES**

We're expanding our popular hinge lineup with a range featuring an all-new patent-pending slow-close mechanism to provide an extra-premium feel. Available in a wide variety of styles and sizes for both interior and exterior applications.

NEW
**Ultra-smooth
soft-close action**
with patent-pending
Teflon-coated pin

Durable
Corrosion-resistant
304 stainless steel

Anti-rattle
Precise, low-friction movement
for minimal rattle

DAMPENING BUTT HINGE

Stamped 304 Stainless Steel

PATENT PENDING

Bulk	Display	A	B	C	D	E	Fastener	Wt.(lb.)	Std. Pack
203070	203070-1	1-1/4"	5/8"	5/8"	1-1/2"	1/16"	#8 FH	.03 / .06	10 ea / 10 pr

This USB 3.0 & USB-C Power Socket with Voltmeter charges two devices simultaneously while the LED screen displays voltage status. The total output 6A load is split 3A per side as needed. USB 3.0 features Quick Charging (QC) for supported devices, giving enough power to charge phones, pads, and tablets quickly and efficiently. USB-C features Power Delivery (PD) for faster and more flexible charging. Protective dust cap extends the life of the charger. LED volt meter reads voltage up to 14.6 volts. Constructed of injection molded nylon. Installation is as easy as drilling a 1-1/8" hole, inserting the socket body, tightening the locking nut, and connecting the wires. Also fits Sea-Dog® Power Socket Shell (426100) and Mounting Bracket (426105). Output DC: 5V/6A. Input: 8-32VDC. USB-C Watts: 60W@24V. USB 3.0 Watts: 36W@12V. Blue LED display. IP65 rating. RoHS compliant.

Introducing Dripper Guard™

Sea-Dog is proud to announce a brand-new innovation and partnership with Dripper Guard™.

Dripper Guard™ prevents boat hull stains caused by water dripping from thru-hull drains. It's perfect for any component on your boat that has a thru-hull! Ideal for preventing stains from air conditioner, sink, generator, shower, bilge pump, baitwell, and sump pump thru-hulls.

Forget the boat hull cleaner and make your boat maintenance a breeze with Dripper Guard™!

Dripper Guard® 3M® by Sea-Dog® Adhesive Stain Guard stops ugly black streaks from staining the side of your boat. Easy do-it yourself installation, simple prep-peel backing and press along the bottom edge of your thru-hull. Patented channel design redirects water out and away from the hull preventing drips down the side and eliminates stains and water sediment build up.

Our Triple Threat™ Three Pole Rod Holder is proudly made in the USA with recycled materials. Features the ability to hold bait, cast, and fly fishing rods/reels. These three-pole, side-mount rod holders come equipped with a built-in knife and plier storage with holders that can accommodate up to 16 different fishing lures. Several key features unique to our patent pending design include: Accessory Track Mounting System™, scent bottle storage, as well as four leash and two bungee cord attachment points. Accommodates rods up to 1-3/4" in diameter. Constructed of one-piece injection molded, UV stabilized polypropylene. No assembly required. Installs with four #8 fasteners (included in display packed product). Available in Black, White, or FDE (Flat Dark Earth). This is a fisherman's dream and is a must have for any boat, kayak, or dock!
