

1. Drill a 16mm hole (or bigger) on the plate you prefer.
2. Pull the electric wire through the hole and connected to the lamp.
3. Unscrew part 7 by hand.
4. Pull up the part 2.
5. Align the wire chase barrel with the hole, and put the plastic base on the mounting surface.
6. Attach the plastic base with 3pcs of M4 screws.
7. Set back the part 2 and screw part 7.
